Introduction

The curriculum for the subject of English at Std. XI and Std. XII has been prepared bearing in mind the curriculum of English for the classes I to X in Maharashtra, the National Curriculum Framework & State Curriculum Framework, the curriculums of English in the other states of India, current thinking in curriculum development and curriculum implementation, and the views/opinions expressed by teachers on the existing curriculum frame work.

Characteristic Features of the new curriculum

1. In pursuance of the existing policy of the State Government, a common course in the subject of English has been designed for the learners from the English medium and the Non-English medium schools.
2. The course offers opportunities for remediation, consolidation and extension of the language skills already learnt.
3. The course endeavors to meet the functional (communicative), literary (aesthetic) and cultural (integrative) needs of the learner.
4. The course provides opportunities for meeting the linguistic needs of the vocational as well as the academic stream. It aims at preparing the learner linguistically to undertake different professional courses like Medicine, Engineering and to pursue different types of undergraduate courses in various streams such as Science, Law, Commerce, Humanities, Agriculture, etc. It also aims at helping the learner to face the wider world of work.
5. The National Curriculum Framework, the State Curriculum Framework and the policy of the State Government underscore the need of making education learner-centered and adopting the constructivist model of education. The role of the learner is that of an active participant and the role of the teacher is that of a facilitator of learning. The focus is on the process of learning. The learner is expected to ‘discover’ and ‘construct’ his/her learning.
6. The major thrust of this curriculum is on the development of communication skills. Along with the basic language skills of Listening, Speaking, Reading and Writing, the skills such as narrating, describing, reporting, summarizing, persuading, note-taking, note-making, etc. have also been focused.
7. The course makes a conscious effort of helping the learner to sharpen his/her literary sensibility, by offering him/her opportunities to read and discuss a variety of literary texts.
8. In view of the developments in the field of Information and Communication Technology, the Board recommends increasing use of technology for effective implementation of the curriculum of English.

**Vocabulary**

Development of vocabulary has its importance in language learning. Learners need to be helped in the consolidation and extension of their vocabulary. Learners need to learn how to understand meanings of words with the help of context and how to use words in an effective way. The coursebooks and other materials will offer necessary guidance in this regard.

**Grammar**

Grammar has an important role to play in the teaching and learning of English. However, our focus has to be not so much on the rules of grammar but on the use of grammar. The knowledge of grammar should lead to an effective use/application of the skills of listening, speaking, reading and writing. Therefore, the focus has to be on the functional aspects of grammar and not on the formal ones.
