Introduction

India has emerged as a global leader and a strong nation at the turn of 21st century. Education is the key to the task of nation building as well as to provide requisit knowledge and skill for sustained growth of economy and to ensure over all progress. India is a nation of young people, working age population. This young population is an invaluable asset of our nation. This population should be equiped with requisit knowledge and skill of defence and security along with the knowledge of social and industrial development so that they can contribute to the defence and development of our nation as well as to defend International human rights.

The concept of the discipline “Defence Studies” recognises the role of the education of this discipline in installing the values of secularism, respect for democratic traditions and civil liberties and quest for justice. It aims at creating citizens equiped with necessary knowledge, skill and values to built and inclusive, just progressive and defensive society. The strength of National defence depends upon the Armedforces, their tradition, honesty, morale, uniform, weapons, equipments, training, logistic support and military leadership.
